Creando una identidad académica digital

León, 13 de mayo de 2016

Enrique Orduña-Malea
Universitat Politècnica de València

Emilio Delgado López-Cózar
Universidad de Granada

Objetivos

1. **COMPRENDER** los cambios en los modelos de comunicación y evaluación académica.
2. **CONOCER** distintas acciones y estrategias para mejorar la visibilidad académica online de una **universidad** a través de la visibilidad de sus **investigadores**.
3. **CREAR** y **OPTIMIZAR** perfiles académicos en la Web.

Guión

1. Metamorfosis en la comunicación y evaluación científica.
2. Estrategia general de comunicación:
 - a) **DEPOSITAR** documentos en los repositorios
 - b) **CONSTRUIR** identidad bibliográfica digital: Perfiles académicos
 - c) **DIFUNDIR** en redes sociales
3. Creación de perfiles académicos creados desde:
 - **Bases de datos bibliográficas:** ORCID, ResearcherID.
 - **Repositorios, tanto institucionales como temáticos** (ej. REPEC).
 - **Motores de búsqueda académicos:** *Google Scholar Citations*.
 - **Redes sociales académicas:** *Academia.edu, ResearchGate, Mendeley*.
 - **Redes sociales profesionales:** *LinkedIn*.
 - **Servicios contenedores:** *ImpactStory, Scholar Mirrors*

**Nuevo modelo de
comunicación científica**

**Nuevo modelo de
evaluación científica**

El modelo tradicional de comunicación científica

Nuevo modelo de evaluación científica

De la Bibliometrics

La evaluación de
unos **pocos** para unos **pocos**

A la Webmetrics y a la Altmetrics

La evaluación
de **todos** por **todos** y para **todos**
La popularización y democratización de
la evaluación científica

La Webmetría y Altmetría

**TODO SE PUEDE
CONTAR**

Los documentos (artefactos) son **almacenados** y **usados** en la Web:

- Enlazados
- Visitados
- Visualizados
- Descargados
- Etiquetados
- Mencionados
- Comentados
- Reseñados
- Valorados
- Seguidos
- Citados (Google scholar)

Desde la huella digital a la identidad digital

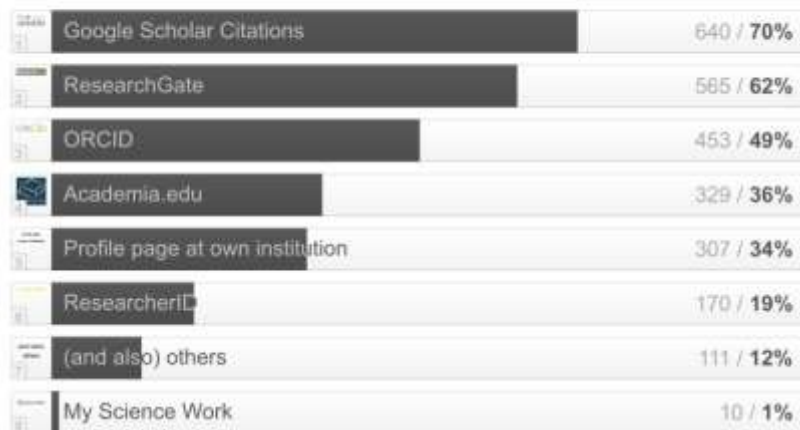

¿Qué debe hacer un **autor/grupo** para mejorar su visibilidad e impacto?

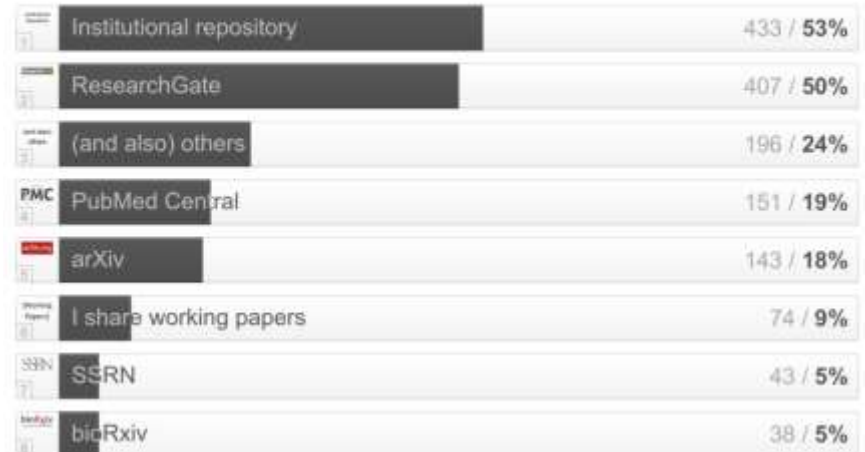

What researcher profiles do you use?

916 out of 1000 people answered this question

What tools/sites do you use to archive/share publications?

815 out of 1000 people answered this question

What tools/sites do you use to tell about your research outside academia?

774 out of 1000 people answered this question

2011-2013

81% WoS publications with doi not included in *Altmetric.com*

19% WoS publications with doi included in *Altmetric.com*

Actualización del perfil

¿Actualización automática?

Actualizar perfil

- Usaremos un modelo estadístico de autoría para identificar los nuevos artículos que escribas. También puede que actualicemos la información bibliográfica de los artículos de tu perfil o que identifiquemos las entradas de artículos duplicados, que se podrán combinar o eliminar. Indica cómo prefieres que se administren estos cambios.
 - Actualizar automáticamente la lista de artículos de mi perfil (*recomendado*)
 - No actualizar mi perfil automáticamente. Enviarme un mensaje de correo electrónico para revisar y confirmar las actualizaciones
- También puedes añadir y eliminar artículos de forma individual, actualizar sus datos bibliográficos y combinar registros duplicados. Las actualizaciones automáticas guardarán tus cambios y no los anularán.
- Google recopilará y mostrará todas las citas sobre tus artículos incluidas en Google Académico. Las citas se actualizarán automáticamente para reflejar los cambios que se produzcan en tu perfil y en Google Académico.

[Ir a mi perfil](#)

Visibilidad del perfil

¿Público o privado?

- **Conviene que sea público: visibilidad personal e institucional**
- **Puede volver a ser privado cuando quieras**

Recuerda que para que aparezca en los resultados de búsqueda de GS, y para obtener alertas informativas automáticas de Google tu perfil debe ser público y disponer de una dirección de correo electrónico verificada de tu universidad.

Las direcciones no institucionales, como gmail.com, hotmail.com, aol.com, , yahoo.com, qq.com, etc., no son aptas para este propósito.

NO QUIERO QUE ME VEAN!

Preguntas abiertas

Jason Antony Byrne · $i124.19$
Griffith University

Does anyone have experience with using alt metrics for assessing impact?

Promotion is increasingly dependent upon measuring research quality and research impact. We have seen the standard approaches such as citations, journal ranking and the h-index. But what about other ways of measuring impact, such as your work being discussed in blogs, on twitter, in community newspapers and on other forms of social media?

OVERVIEW

Non-reproducible

Methodology · Analyses · References · Findings · Conclusions

Created Mar 13, 2014 · Edited Nov 21, 2014

Review Contributors: Tommy Lo, Florence Tang, Kenneth Ka-Ho Lee

METHODOLOGY

Are the tools and methods appropriately applied, and are the data correct? No

The methods for generating STAP cells and their maintenance as reported in the paper are very novel. However, the readers would find it difficult to validate some of the findings.

For instant, there are some confusing steps in the procedures and the same confusion was also observed in their recent follow-up publication in "Protocol Exchange" dated 5th March 2014.

Search

Clear

Search Tips

You can find researchers who have registered with ResearcherID.

To search for a researcher, enter their name. For a first name, try entering either just an initial or the entire first name. Check the "other names" checkbox to search the Other Names field for either the last name or first name search terms.

Use the wildcard character * at the end of a word to find matches with any ending (for example, Penn*).

Or, if you know it, you can enter just the researcher's ResearcherID.

New paper added to Scholarly Communication: 1 day

Data-PE: A Framework for Evaluating Data Publication Policies at Scholarly Journals

With the growing importance of data to the scholarly record and the critical role journals play in facilitating data sharing, the complex landscape of scholarly journal data publication policies has become an obstacle for research. This paper outlines Data-PE, a framework for evaluating these policies. It takes the form of a conceptual foundation, comprising twelve criteria for evaluation, operationalized through an evaluation tool. Its objective is to function as a flexible means f...

PROTOCOLO VERBAL E TESTE DE ASSOCIAÇÃO LIVRE DE PALAVRAS: perspectivas de instrumentos de pesquisa introspectiva e projetiva na ciência da informação

Resumo: Estratégias cognitivas e metacognitivas possibilitam ao indivíduo planejar e monitorar o seu desempenho de aprendizagem, permitindo, com isto, a tomada de consciência dos processos utilizados para aprender. Favorecem a tomada de decisões apropriadas sobre quais estratégias adotar em cada tarefa e a avaliar a sua eficácia, alterando-as quando não produzem os resultados desejados. Nesse sentido, os estudos sobre a cognição humana encontram-se na...

The Universidad de León is a young university but is heir to a rich tradition of accredited academic prestige. Our commitment is to attain excellence in teaching, research and innovation and to contribute to society by educating dynamic graduates who are ready to enter the labour market. Our focus is mainly on human development, paying special attention to the environment and educational values. We also aim to serve as an academic reference for administrations, businesses and the professional world.

Perfil personal

The screenshot shows the LinkedIn profile of Nader Ale Ebrahim, PhD. The profile includes a header with a search bar and navigation icons, a banner image, and a main profile section with a profile picture, name, and title. The main section also lists current and previous roles, education, and a 'Send a message' button. Below this is a 'Relationship' section with a '+ Note | Reminder | Tag' button and a message from 'Hi Enrique' dated 1 year ago. The 'Posts' section shows three posts from the University of Malaya, each with a 'Published by Nader' label and a '4,973 followers' indicator. The right sidebar features a 'People Also Viewed' section with a list of recommended profiles, each with a small profile picture and name.

Nader Ale Ebrahim, PhD
Research Fellow, Creator of "Research Tools",
Technology Management Consultant, Virtual Teams expert
Kuala Lumpur, Malaysia | Automotive

Current Research Support Unit, Centre for Research Services, IPPP, University of Malaya

Today I participated in a very interesting broadcast of Radio Swammerdam about interdisciplinarity, put very well together and presented by Lieven Heeremans. Other guests were Meike Bal well known for her work on narratology, cultural analysis, feminist theory, interpretation of biblical texts and of Rembrandt's works etc. and Loet Leydesdorff, well know for his work on the Triple Helix, dynamical analysis and visualisations of development in scientific collaborations, critiq... OVERVIEW ACHIEVEMENTS MENTIONS PUBLICATIONS

ACHIEVEMENTS

[view all](#)

Global Reach ⁹¹

Your research has been discussed in 19 countries. That's high: only 8% of researchers have their work as widely discussed.

📌 Your tweeters come from Argentina, Australia, Belgium and 16 more.

Global South ⁹¹

More than 21% of people who mention your research are in the Global South. This puts you in the top 8% of researchers.

📌 Countries include Argentina, Brazil, Colombia and 5 more.

A white chess pawn is positioned in the center of the frame, resting on a wooden chessboard. The board's squares are a mix of light and dark wood, creating a grid pattern. The lighting is soft, casting a gentle shadow of the pawn onto the board to its right. The text is overlaid on this background.

Si has llegado hasta aquí

Tu ego científico
estará más que alimentado

Pero...
de nada servirá si no tienes
algo que decir

Muchas gracias por vuestra atención!
