Ångström Makerspace

Ångström Makerspace riktar sig till dig som vill arbeta kreativt, skriva ut prototyper med 3D-skrivare och lära dig olika kreativa arbetssätt genom öppna workshops.

Bra att veta inför bokningar och användning av Ångström Makerspace

- Rummet är tillgängligt dygnet runt med campuskort
- För att använda 3D-skrivaren behöver du ha tagit 3D-körkort.
- [Boka 3D-skrivaren](#)

Information om hur du använder Makerspace finns på [Makerspace wiki](#).

Kommande workshops hittar du i [bibliotekets kalendarium](#).

Introduction to 3D-printing at Ångström Makerspace

[Add to your calendar](#)

- Date: 2 October, 17:15–19:00
- Location: Ångströmlaboratoriet, Lägerhyddsvägen 1 Ångströmsbiblioteket, Makerspace
- Organiser: Uppsala universitetsbibliotek
- Contact person: [Agnes Kotka](#)
- [Workshop](#)

Welcome to a Makerspace-evening for both the new and experienced maker. This evening will introduce you to 3D-printing. After completed course you will have a 3D-printing licence and full access to the printers.

Student ambassadors will be there to help and the library will provide "fika".

NVivo for Qualitative Data Analysis - step 2

[Add to your calendar](#)

- Date: 22 November, 09:30–11:30
- Location: Akademiska sjukhuset ALC, Medicinska biblioteket
- Lecturer: Camilla Zetterberg
- Organiser: Uppsala universitetsbibliotek
- Contact person: [Camilla Zetterberg](#)
- [Workshop](#)

Welcome to a training session in which we will work with NVivo, software for qualitative data analysis. The session is suitable for those who have attended step 1 or are already familiar with the basic features covered in step 1. Participants also need to be familiar with qualitative data analysis.

Analyse and visualise your coding

In step 2 the focus is on analysing and visualising your project. Step 2 is suitable for those who want to move beyond the basic coding and start to analyse the content of the project.

- During step 2 we will cover the following topics:
