URBAN NETWORK STRATEGY

This link support city wants to be a machine including an elongated platform for collective expression and promotion of projects:

- Transit Network - Improve and design a safe transportation system (monorail-podcar) that encourages walking, biking and mass transit and connects residential, commercial and retail areas;
- Mixed-use towards an implementation of intense and programmatic neighborhoods and areas of higher concentration of diversity throughout the city, in coordination with public transport accessibility.
- Charged Green - integrate green space and productive landscapes throughout it, providing accessible and pleasant public places, as well as on-site water filtration;
- Energy - provide a clean, reliable energy network through upgraded infrastructure, distributed power generation and on-site renewable;

Community - foster a safe, healthy and integrated community that embodies the aspirations of both current and future residents.

-Leadership - regenerate communities through innovative collaborations, partnerships and other inclusive strategies for governance, management, job training and employment in the activities of leading and serving the community.

OUR VISION

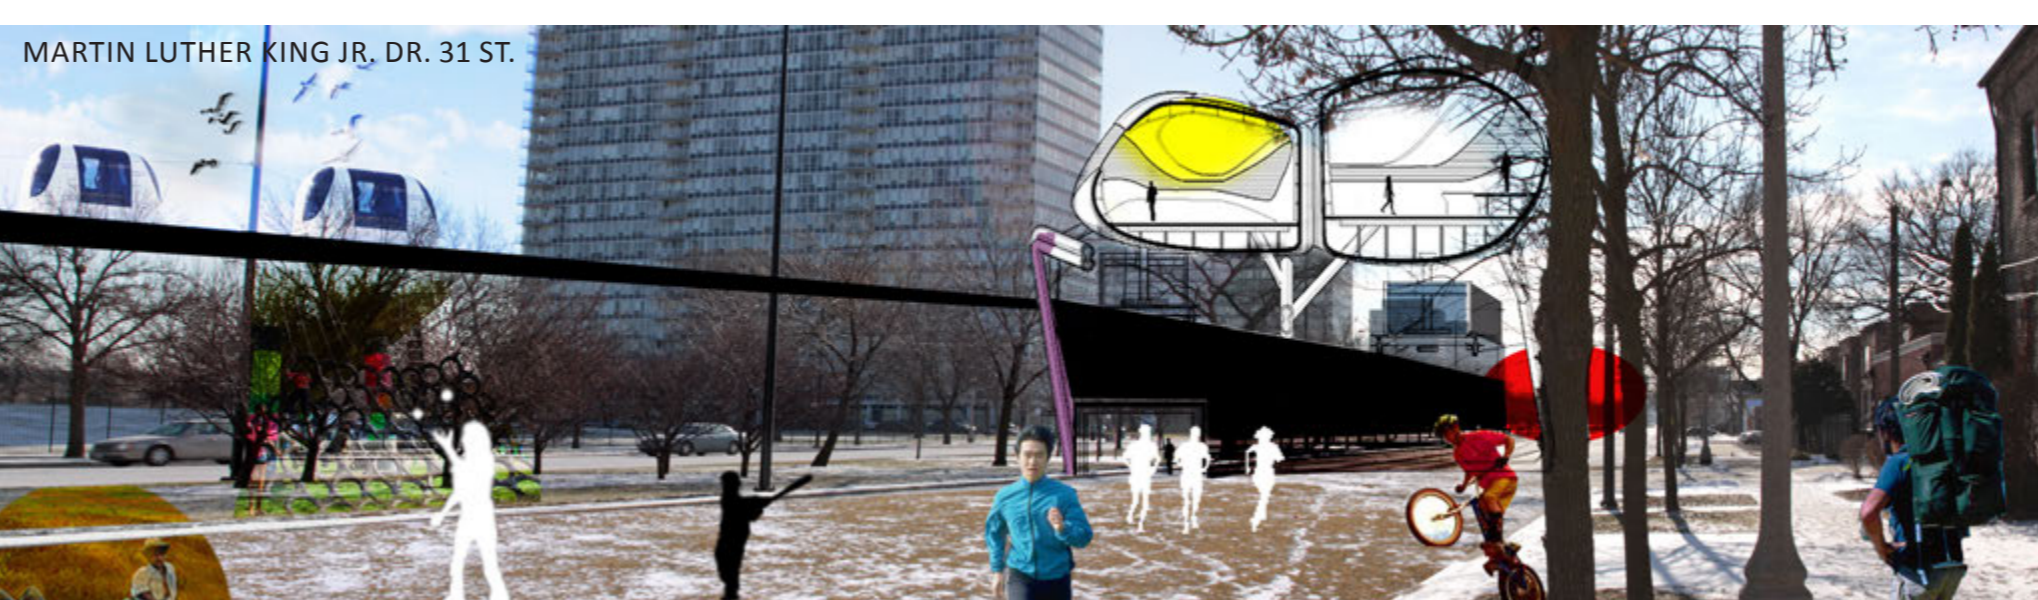

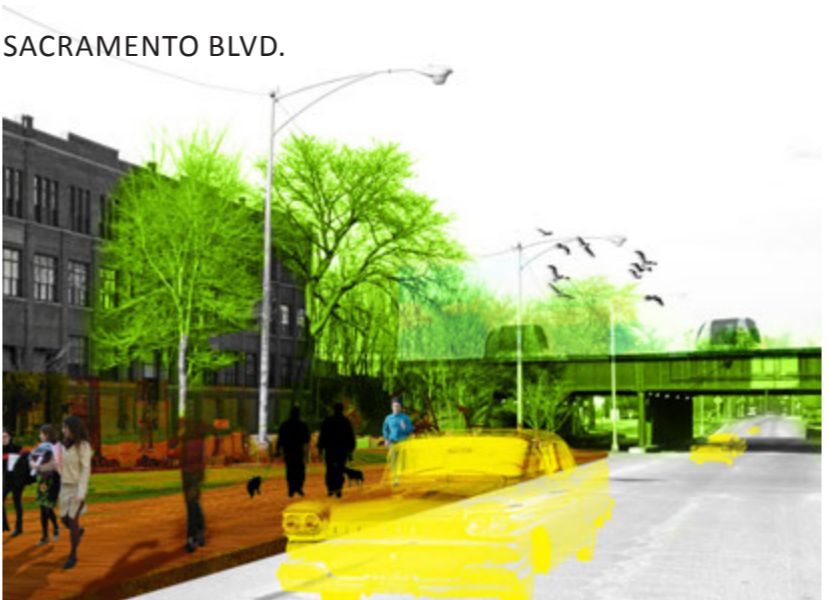

Our vision is to create a wonderful, vibrant and social infrastructure along the necklace with thousands of different and intense places.

The project develops a series of interventions along the park system, especially in two north-south strips indoor, devices and architectural events that foster new connections between the public and private realms and serve to encourage public awareness and participation through new programs.

OBJECTIVES. PARK ACTIONS

The project aims to reconnect places and communities. We want to build on the strengths of the park system, transform perceptions of the areas, encourage positive change and stimulate investment.

We want to celebrate the park system and boulevard and reveal its social, cultural and urban richness by enhancing historic buildings and spaces, and supporting active social projects and events.
